****On this first page, the participant's direct supervisor must sign and date in the area designated for this purpose. The intern/trainee must sign and date in his/her section. Please leave the section designated for the "sponsor" blank as CIEE is designated by the Department of State as the legal sponsor of the intern/trainee. ****The DS 7002 (training/internship placement plan) should be completed by the primary host organization contact (supervisor). CIEE will contact your company to verify dates of training and clarify any issues with the training proposal. TRAINING/INTERNSHIP PLACEMENT PLAN			
An acceptable Training/Internship Placement Plan should cover a definite period of time and should consist of definite phases of training or tasks performed with a specific objective for each phase. The plan must also contain information on how the trainees/interns will accomplish those objectives (<i>i.e. classes, individual instruction, shadowing, etc.</i>). Each phase must build upon the previous phase to show a progression in the training/internship. A separate copy of page 2 must be completed for each phase if applicable (<i>i.e.; if the trainee/intern is rotating through different departments</i>).			
Name of Trainee/Intern (<i>Last, First, MI</i>) Fill in with participants last, first names and middle initial		Field of Training/Internship Insert the field in which the training program is taking place (ie: marketing, architecture, fashion, etc.)	
Name of Phase Insert a title for this phase that is descriptive of the nature of this portion training.	Start Date for this Phase If there is only one phase, the start and end dates should be the same as those on the first page of the DS 7002- <hr/> <i>(mm-dd-yyyy)</i>	End Date for this Phase otherwise the dates should coincide with the amount of time necessary to complete this portion of the training. <hr/> <i>(mm-dd-yyyy)</i>	Phase _____ of _____
Specific Objective for This Phase Offer a detailed description of the purpose of this phase. Think about the following questions: what is the intent of this training? what do you wish to accomplish during this part of the training? what is the idea behind all of the activities of this phase? what should the participant gain by taking part in this portion of the training?			
Skills to be Imparted for This Phase List all of the skills that the participant will gain upon completion of this portion of the training. Be as detailed as possible so that any person reviewing this document could understand why this training is important to the participant.			
Justification for On-The-Job Training Describe why you feel it is important for an individual to participate in this training program. Why is on-the-job training beneficial? How will this training differ from the academic training the participant has already undergone? What will the participant be exposed to that he/she couldn't be in his/her home country.			
Chronology or Syllabus of Training or Tasks Performed During This Phase List all tasks that will be completed/activities the participant will take part in during this phase. What tasks must be completed in order to fulfill the objectives of this phase? Be as detailed and offer as many examples as possible to give the reader an accurate picture of what the training will be like on a daily basis. In addition to listing these activities, it may be beneficial to offer a timeline over which these tasks/activities are to take place.			

Method of Evaluation and the Frequency of Supervision During This Phase

Describe how the supervisor will evaluate the participant's progress. For example: direct feedback, observation, meetings, written evaluations. It is also important to describe the level of supervision of the participant by the supervisor (should be constant/continuous throughout the training).

DS-7002

**If the participant is an intern (INT) it is only necessary to have one phase. However, for programs where the participant is a trainee (PCT) there must be multiple phases. In this case, the training plan should progress through more advanced areas of training. Design each phase to build upon the skills and knowledge gained in the previous phase(s). The trainee may rotate through different departments or complete a large project during the traineeship.

Additional information to keep in mind:

Training programs in medical, psychological, or social services settings are treated with a higher degree of scrutiny. Depending on the circumstances, these programs may not be accepted under US Department of State regulations.

Training cannot be duplicative of the trainee's prior experience.

Training positions should not be considered as "ordinary employment". If this position would normally be filled by a full-time employee, it is not appropriate for an intern/trainee.

Trainees cannot complete programs in an "unskilled occupation," as defined by the US Department of State.

Host companies must provide continuous supervision.

Training must be directly related to the applicant's field of endeavor. Students must train in a field related to their university studies.
